Hi Principal Folk,

Thank you for the clarification and for continuing to work through this with us.

I may be remembering this incorrectly, but I thought we had discussed AD Poore or possibly the athletic trainer who is sometimes present at practice as a potential safe person.

From Anna's perspective, having a clearly identified and consistent safe person would be helpful in making communication feel structured and supportive. We are open to aligning on who that should be.

Given the importance of getting this right for Anna, I do think it would be helpful to meet in person and align on a clear path forward. We are happy to meet at the school level if you could please let us know a time that works for you.

Thank you,

Morgan
